Box 728, Burlington, IA 52601, Phone 319-753-9165. The scholarship may be awarded only to current graduating high school seniors and alumni graduates of Notre Dame High School, Burlington, Iowa who are accepted into a vocational program at Southeast Iowa Community College. The amount of each scholarship is determined on an annual basis by the scholarship committee. The scholarship committee also determines the number of scholarship grants that will be made each year. The anticipated award for each student in the coming 2026-2027 academic years will be between \$5000.00 and \$6000.00. The committee may award the scholarship to the same student for up to four years.

### **Eligibility**

To be eligible, the applicant must be a worthy graduate of Notre Dame High School and must attend Southeastern (Iowa) Community College as a full-time student in vocational or trade classes for the purpose of acquiring skilled industrial trades beyond those taught at the high school level. **Vocational programs are programs that once completed will qualify the student to enter the workforce in a skilled job. The student must have been accepted into a vocational program at Southeastern (Iowa) Community College at the time application for the scholarship is made.** High school seniors and past recipients who are continuing their educations are eligible. Prior graduating Notre Dame students are eligible.

A past recipient's eligibility is such that he or she is on the same footing as other past recipients and current high school graduates. A past recipient competes with all other applicants for the available awards. It should be clearly understood that the scholarship does not automatically renew in succeeding years.

To receive consideration for an award a past recipient must complete a new application form in each year of eligibility and submit a transcript of grades for the college level courses that have been completed.

### **Selection Criteria**

The primary consideration for selection is the applicant's need for assistance to pay the cost of post-secondary education. However, the committee may inquire into and take into account other information that bears on a student's prospects for successfully completing the program of study. Also, it may consider information that is relevant to the integrity and effectiveness of the scholarship program itself.

### **Grants**

The committee will make its selections on or before May 15, 2026. All grants must be paid directly to the recipients' schools. Each grant is paid in two or more installments, one installment for each term in the school year. For example, if the school year consists of two semesters, one-half of the grant will be paid at the beginning of each semester. A full-time load of credit hours and passing grades are conditions of disbursement of an award. Recipients must submit a transcript of grades to Two Rivers Bank & Trust, Two Rivers Wealth Management after the end of the term to show satisfactory progress before the next installment will be disbursed. Recipients are responsible for providing the necessary information to verify that the conditions of payment have been satisfied.
